

C-PACE: The CRE Tool for Energy Efficiency

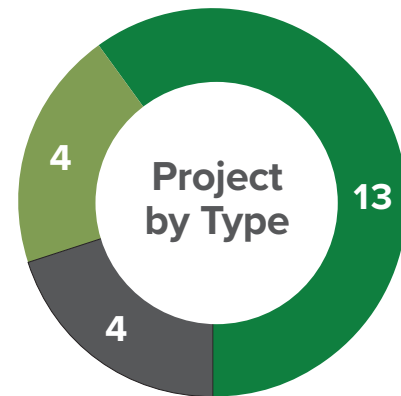

THE ILLINOIS
ENERGY
CONSERVATION
AUTHORITY NFP

IECA has financed over \$94 million for energy efficient upgrades.

C-PACE is an innovative tool that enables commercial property owners to obtain up to 100% long-term, fixed-rate financing for energy efficiency, renewable energy, resiliency, water use and electric vehicle charging building improvements. Property owners may obtain financing from private capital providers for eligible improvements such as HVAC, lighting and solar photovoltaic (PV) systems and other improvements in both existing buildings and new construction projects.

■ Efficiency ■ Renewable ■ Mixed

Emissions Equivalencies (Annual)

Avoided Greenhouse Gas Emissions From:

985
Homes' energy use for one year

43
Railcars' worth of coal burned

Almost 1 Billion
Number of smartphones charged year

296,386
Incandescent lamps switched to LEDs

1,685
Passenger vehicles driven for one year

Carbon sequestered by:

9,254
Acres of U.S. forests in one year

Greenhouse gas emission equivalencies:

2
Wind turbines running for a year
